

SIDE EMITTING FIBER OPTICS CABLES "FEL-SN"

Available in the monofiber composition "FEL-SN," consisting of a single extruded synthetic optical fiber (PMMA) with a transparent over-extruded sheath for indoor use.

The "FEL-SN" side-emission cables are ideal for decorating and highlighting walls, ceilings, floors, pathways, or light lines within cars or vehicles in general (campers, vans, trucks, etc.). They are also excellent for marking escape routes in indoor environments.

Code	Diameter	Bend radius
FEL-SN/015	1,5mm	7,5mm
FEL-SN/020	2,0mm	8,2mm
FEL-SN/030	3,0mm	12,6mm
FEL-SN/040	4,0mm	16,8mm
